## EXPERIENCE

Staff Web Developer

Infoblox

📅 01/2025 – 08/2025

📍 Remote

- Manage infoblox.com and the global blog, driving initiatives to improve site performance while building AI tools to optimize marketing operations.
- Lead web development projects, recently launching 10+ new web assets, including high-impact webinar landing pages that currently generate approximately 30 percent of new client acquisitions.

Lead Engineer | Full Stack Engineer II

QuillBot

📅 12/2021 – 09/2024

📍 Remote

- Led development of scalable features for QuillBot's core AI paraphrasing tool, leveraging reusable React components and Server-Side Rendering (SSR) to deliver high performance for millions of global monthly users.
- Rapidly engineered and launched the AI Detector tool within a single week, the tool achieved a Number 2 Google Search ranking within its first month of release.

Full Stack Engineer

CloudCover

📅 06/2021 – 11/2021

📍 Remote

- As part of CloudCover Data Pipe product development team, I was responsible for developing new features using reusable Vue components

Team Lead | Full Stack Engineer

DataGrokr

📅 04/2018 – 06/2021

📍 Bengaluru/Remote

- **Migration & Optimisation Project | Team Lead:** Managed the team and client; created plans to migrate applications to AWS.
- **Oil and Energy Analysis:** Combined 100+ analysis tools into a single platform for a major Oil and Research client.

## PERSONAL PROJECTS

Auto Balancing Robot

Robotics

📅 01/2018 – 02/2018

- Self-balancing robot capable of balancing itself on two wheels placed in parallel.
- **Hardware:** Arduino UNO, MPU6050, 2 motors, IC-L293D.

## PHILOSOPHY

*"I like to say I can learn it instead of saying I don't know."*

## SKILLS
